Group Contract

Team Goals and Purpose

- Working together to deliver a high-quality project by leveraging our technical and communication skills
- Completing milestones on time
- Prioritize user experience

Team Values

- Transparency
- Respect
- Growth
- Accountability

Roles and Responsibilities

- Leads: delegate tasks, facilitate communication between teams and with TA
- Designers: create wireframes, determine product brand/identity
- Developers:
    - Full-stack: responsible for backend and frontend
    - Tester: create tests, test product thoroughly

Potential Issues and Solution

- Lack of communication
    - Solution: check-ins often, clear roles/deadlines, safe non-judgmental space

Conflict Resolution Strategy

1. Talk with that person
    - Try to DM
    - If unresponsive, approach at lecture?
2. Communicate to TA
3. Communicate to Professor

Communication Process

- Check announcements/channels regularly
- Tell leads/other team members if unable to attend meeting
- Respond in a timely manner

Success Metrics

- Thorough documentation
- Pass all tests
